PORTABLE MAGNETIC DRILL BASE

FEATURES • SETUP & OPERATION
COMPONENTS & ACCESSORIES • TECHNICAL DATA

Whether you are drilling holes in a production environment, working on large fabrications, or doing maintenance work, our new magnetic drill stand can help you be more productive and work safer. This easy-to-use drill stand is lightweight yet has a powerful electromagnetic base that will operate in any position.

- Weighs less than 13 lbs. (without drill), and approximately 19 lbs. with drill—for easy operation
- Compact design allows for use in areas of restricted accessibility
- Attaches firmly even to thin plates of 0.2" thickness to assure high-precision drilling work
- Drill clamping bracket is designed for use with Milwaukee Electric Magnum Hole Shooter® series electric drills

  (Please note: Use of other makes of drill motors will require customer's retro-fit for proper fit to the clamping bracket.)

(Drill not included)

Part No. 41143

Power requirement (single Phase)	AC110-120V
Magnet dimensions	4" dia. x 2.375" high
Overall size (without drill)	9" width 9.5" lowered height 11.75" extended height
Holding power of magnet	770 lbs. (measured on 1" thick mild steel)
Maximum stroke	3.9"

The base will work with the following Milwaukee Magnum Hole Shooter® models:

Climax Part No.	Capacity	Type	Note
41419	1/2"	Keyed	850 RPM — Heavy-duty keyed chuck
41420	1/2"	Keyed	600 RPM — Heavy-duty keyed chuck
41421	1/2"	Keyed	850 RPM — Heavy-duty keyless chuck
